EUROMIND AS PROJECT PARTNER

1. Profile Description

Euromind is an international training consultancy and VET provider with headquarters in Seville and Úbeda in Andalusia (Spain).

Euromind as a training provider delivers vocational education trainings, general and job-related language courses, VET training-related workshops and study visits, workshops on culture, lifestyle and customs of EU countries as well as classes on skilful and effective job search in the EU.

It promotes and delivers trainings for teaching staff and secures work placements and exchange activities for VET students and graduates enabling at the same time young people and professionals to make the most out of opportunities of competencies & skills development offered by European educational programmes.

Euromind in partnership with Andalusian vocational colleges and companies delivers school based vocational trainings for students of different educational fields, such as: CNC, automation, electricity, renewable energy sources, plumbing, industrial and graphic design, 3D design, ICT, electronics, administration.

Euromind as a VET provider works in partnership with a wide array of private companies in almost all the sectors, such as tourism, business administration, medicine, fashion, hairdressing, health & beauty, physiotherapy, marketing, media, advertising, public relations, tourism, IT, social work, logistics, nursing, construction, geodesy, analytics etc.

2. Euromind experience and expertise

The Euromind possesses extensive experience and expertise in the field of European mobility projects preparation and management which allows it to assist Spanish vocational colleges and governmental institutions with the preparation of project applications, finding trustworthy and competent host partners in Europe for their project participants, teaching and HR staff.

Over last 3 year Euromind has participated as a receiving – host partner in over 60 mobility projects with the participation of a total of 1800 persons: students from technical and vocational schools, university students, graduates, unemployed and teaching and HR staff. These projects involved partners from Poland, Great Britain, Czech Republic, Slovakia, Germany, Portugal, Turkey, Croatia, Italy, Greece, Bulgaria, Lithuania, Latvia, etc. The full list of projects including numbers and titles is available on the Euromind website: www.euromind.es in the Gallery.

Euromind is also responsible for the participants' linguistic, socio-cultural and practical preparation and also, if necessary, for the project administration and management issues.

Euromind has been participating as a sending and host organization in more than 100 projects including Leonardo Partnership, Erasmus Placement and Leonardo Mobility – PLM, VETpro and IVT and Erasmus + projects.

Euromind monitors that all the required documentation is prepared and submitted on time at every stage of the project lifecycle and makes sure that all the partners carry out their responsibilities.

Euromind participates in seminars organised by ECVET team regarding the use of system of transfer of competences and skills in the vocational training. Euromind experts have extensive knowledge in the field, hence they are able to train their partners on how to make use of this system in their projects.

Euromind has an impressive network of partner companies from different economic sectors. More than 800 entities both private and public cooperate with Euromind in Ubeda, Seville and Malaga. This extensive activity is a perfect guarantee that all the students received by Euromind will be successfully placed.

PROJECT PARTICIPANTS' LIST

Participants' Name	Placement Sector
DUMITRU - CRISTIAN BADEA	Road Traffic Technician
ROBERTO - DAVIS BRÎNDUȘOIU	Road Traffic Technician
ROBERT - ȘTEFAN COLȚOIU	Road Traffic Technician
DANIEL - NICUȘOR CONSTANTIN	Road Traffic Technician
CĂTĂLIN - IONUȚ CURELEA	Road Traffic Technician
ALBERT - FERNANDO DOBROMIRESCU	Road Traffic Technician
IONUȚ - ALIN DRUGAN	Road Traffic Technician
CĂTĂLIN - ALEXANDRU GÎRTOI	Road Traffic Technician
ȘTEFAN - CĂTĂLIN MANȚOG	Road Traffic Technician
MIHAI - IONUȚ PĂRȘAN	Road Traffic Technician
CRISTIAN - ROBERT ROȘU	Road Traffic Technician
COSTIN- ANDREI TĂNASIE	Road Traffic Technician
IONUȚ - MIHĂIȚĂ GÎRTOI	Road Traffic Technician
ADINA - DANIELA BĂDĂLAN	Road Traffic Technician
CRISTINEL - NICUȘOR CAPEZAN	Road Traffic Technician
ȘTEFAN - COSMIN ȚICLETE	Road Traffic Technician
DENIS - DOINEL VASILE	Road Traffic Technician
ALEJANDRO - NICOLAS RADU	Road Traffic Technician

TRAINING PROGRAMME

Host Organization: Lepanto Motor S.L.

Tutor's name: Manuel Martín Cervantes

1. Description of the host organization

Talleres Lepanto is a car workshop formed by a great team of professionals, lovers of their work and the motor world. Among the work they do we can highlight: Mechanics in general - engine, suspension, bodywork; maintenance plans - official maintenance review of the vehicle as required by the manufacturer, specialised and tailored; brakes; Clutches - they work with the first brand of clutch and bimasa kit, thus offering a guarantee of perfect operation for as long as possible; automatic gearboxes; Timing belt; electricity diagnosis. They have the latest technology to detect exactly where the fault or failure has occurred and give the most satisfactory solution for repair. In addition, they prepare the vehicles with full warranty so that they successfully pass the technical inspection of the vehicles (ITV).

2. Main responsibilities & tasks carried out during the work placement

- Helping with the installation and replacement of car air conditioning
- Assisting in aligning and repairing wheels
- Assisting in inspecting and testing new vehicles to detect potential faults
- Helping in lifting the vehicle to a specified level, using a hydraulic jack
- Disassembling units such as engines, gearbox etc. using manual or electric tools
- Performing basic services and repair activities related to car servicing, i.e. oil and filters change, defective parts replacement, washing of the engine and other car components
- Evaluating the quality of mechanical, electrical and electronic vehicle equipment operations
- Selecting and using measurement instruments and diagnostic equipment in the vehicles
- Using diagnostic computers and oscilloscopes in the workplace
- Repairing car body, i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembling and disassembling of car body components and chassis

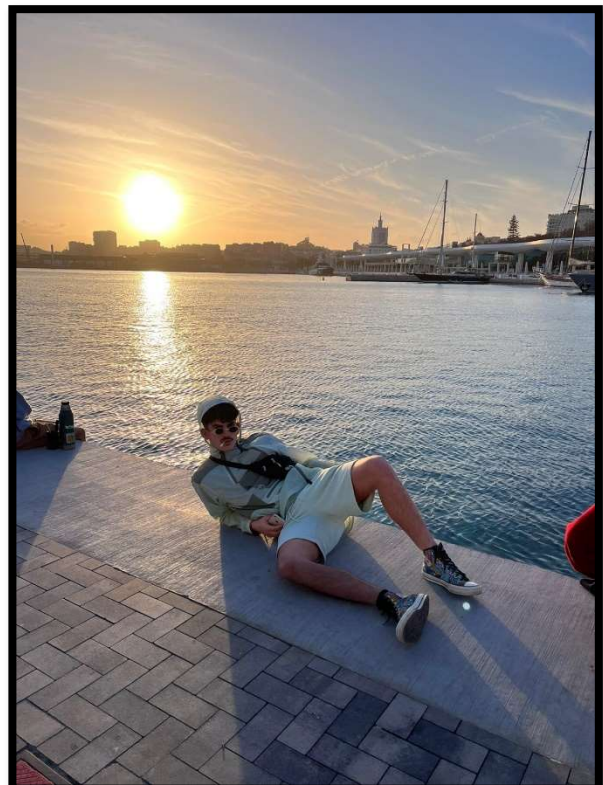

DUMITRU-CRISTIAN BADEA

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to come to this project in Spain because it was an extraordinary opportunity for me to get to know this country, and also new people and cultures. I knew from the beginning that I would be surprised and that's how it was: different buildings, different people of many nationalities, oranges, palm trees, everything is new to me. I carried out the practice at Lepanto Motors SL where we had enough responsibilities, to learn the route so that we can arrive, to always communicate with the people from the service, and to learn new things that we didn't know. As for the difference between Romania and Spain, this is not too big, the modality of checking and repairing machines is the same. I spent my free time going to the beach, the hotel pool, shopping or visiting Malaga.

COSTIN- ANDREI TĂNASIE

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to come to Spain to experience something new. I liked the weather, the architecture of the houses and the very welcoming people. I was surprised by the people who are very welcoming. In my free time, I usually played snooker, went to the beach and spent time at the hotel.

Host Organization: Renault Scora - Talleres de Suministros Comerciales Y Reparaciones Automocion S.L.

Tutor's name: Jesus Cabrera

1. Description of the host organization

Renault Scora (Talleres de Suministros Comerciales Y Reparaciones Automocion S.L.) is an internationally known company dedicated to the sale of new and used trucks, their repair and maintenance, and even trailers. Its technological and human team is able to solve any problem related to gearboxes and automatic references.

2. Main responsibilities & tasks carried out during the work placement

- Helping with the installation and replacement of car air conditioning
- Assisting in aligning and repairing wheels
- Assisting in inspecting and testing new vehicles to detect potential faults
- Helping in lifting the vehicle to a specified level, using a hydraulic jack
- Disassembling units such as engines, gearbox etc. using manual or electric tools
- Performing basic services and repair activities related to car servicing, i.e. oil and filters change, defective parts replacement, washing of the engine and other car components
- Evaluating the quality of mechanical, electrical and electronic vehicle equipment operations
- Selecting and using measurement instruments and diagnostic equipment in the vehicles
- Using diagnostic computers and oscilloscopes in the workplace
- Repairing car body, i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembling and disassembling of car body components and chassis

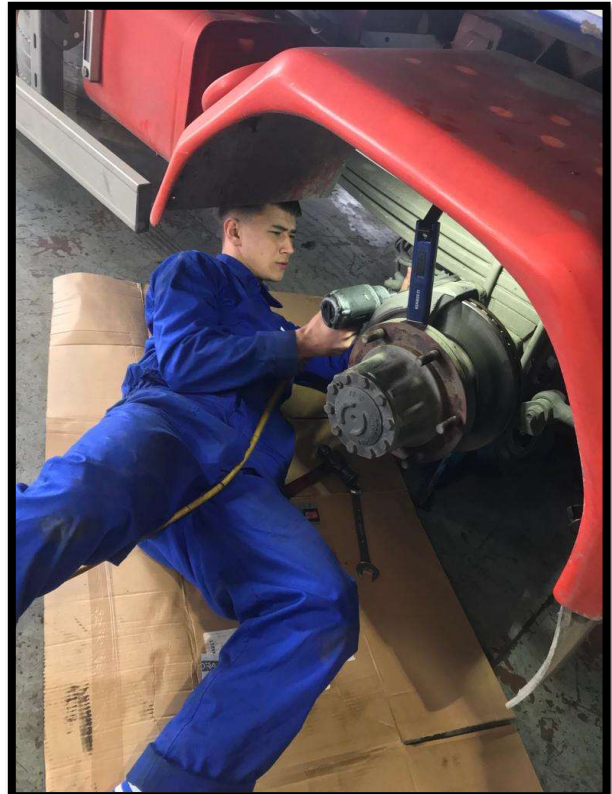

ROBERTO-DAVIS BRÎNDUȘOIU

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I really wanted to come to Spain, because I have never been to this country before. Malaga is the first city I visited in Spain and I like it, and the memories here will remain in my soul. I was surprised by the high temperature because in Romania it is winter and cold. I liked the Mediterranean Sea, the beach, and the hotel where I lived, but also that we met other students from Romania. I worked at Renault Scora and I had to respect the work schedule, pay attention and follow the instructions my mentor gave me. The practice in Romania is similar, I really like repairing cars. In my free time, I visited Malaga with my friends, went shopping at the mall, went to the beach and played soccer.

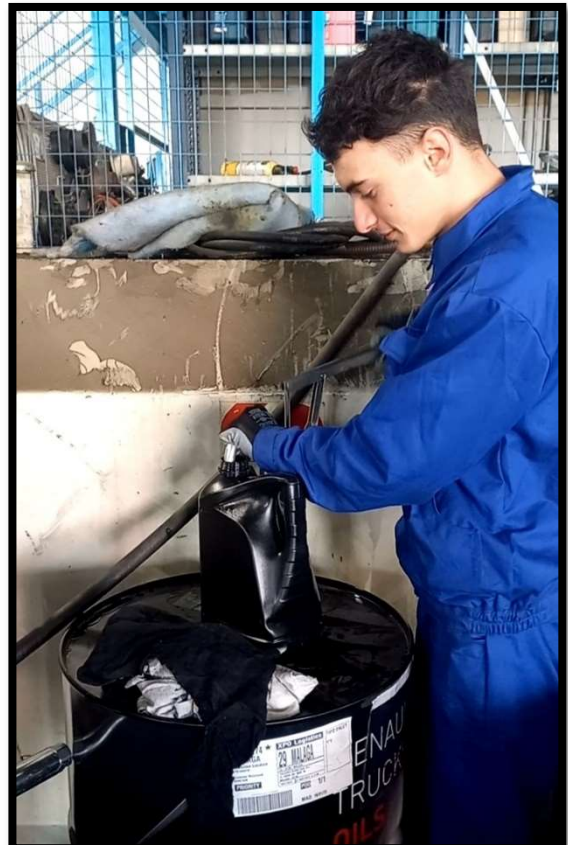

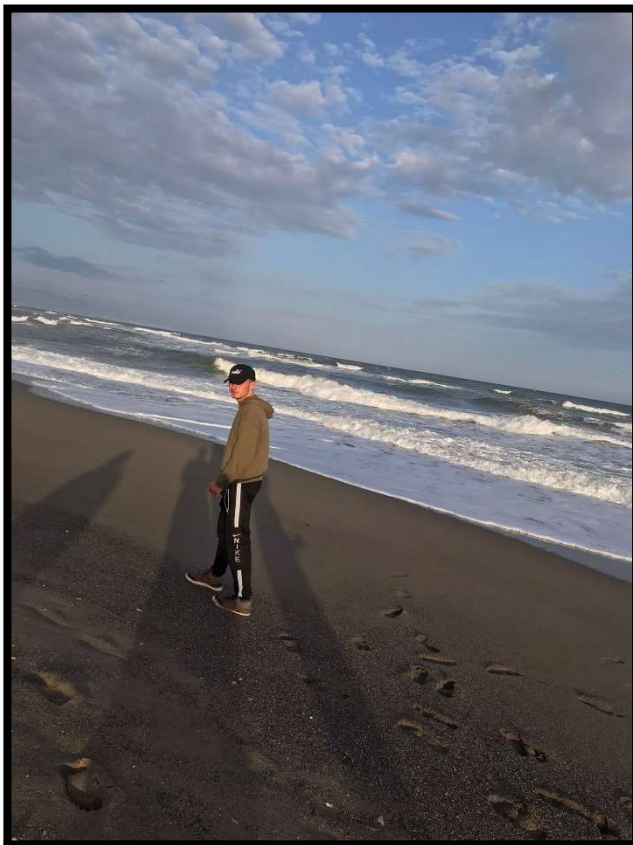

DANIEL-NICUȘOR CONSTANTIN

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to come to Spain for a long time and this project fulfilled my wish. I like that it is warm during this period, and in Romania it is winter. I was impressed by the palm trees where parrots live, by the different shapes of the houses here that resemble Arab ones, and by the orange trees on the street. I worked at Renault Scora and it was not difficult at all, I enjoyed learning every day. I had to be respectful and punctual. I learnt something I didn't know about how to repair a car. In my free time, I rested because I woke up every morning very early, I went shopping in Malaga and Torremolinos.

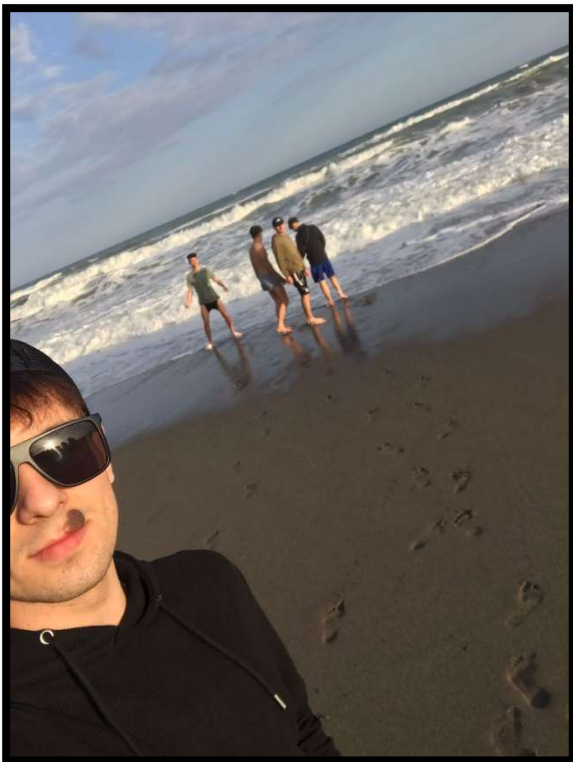

IONUȚ- ALIN DRUGAN

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

Spain and especially this region, Malaga, are very beautiful and I was happy when I was selected for this Erasmus project. I knew that I would have seen new people and places, but I was impressed by the beauty of this area. We don't have in our country oranges or parrots in the palm trees, and the Mediterranean Sea is impressive. At Renault Scora everything was fine, I felt comfortable and learnt new things about car repair. I was on time every and I managed to communicate with our mentor. In my free time, I went for a walk around Malaga, Torremolinos, the mall, and the beach.

Host Organization: Autocares Carmona Díaz S.L.

Tutor's name: Juan Antonio Carmona Díaz

1. Description of the host organization

Autocares Carmona (Autocares Carmona Díaz S.L.) is a transport company that offers services in the organization of local and national transport in Spain. Professional bus and minibuss service for school routes, trips, local journeys are offered and service for organized and occasional events. Their professionals are also in charge of the maintenance, repair and comprehensive care of the vehicles, as well as everything related to their logistics.

2. Main responsibilities & tasks carried out during the work placement

- Accompanying the driver on the routes
- Preparing the bus for transport
- Assisting in loading and unloading goods
- Using specific software for route organisation
- Organising and planning the drivers work
- Organizing and planning the driver's work
- General vehicle maintenance

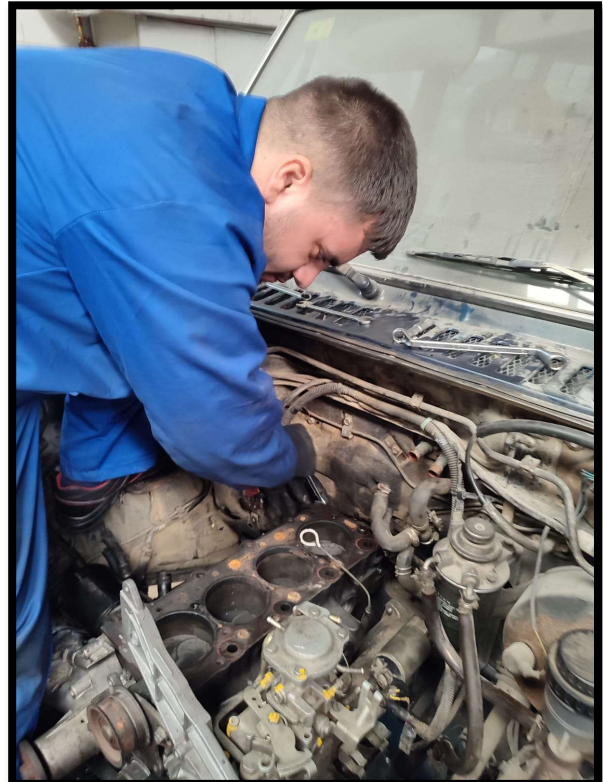

ROBERT-ȘTEFAN COLȚOIU

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to go to Spain and this project was a great opportunity. I like that everything is different from our country, I worked at Autocares Carmona Diaz SL and it is not difficult at all, there are no big differences compared to what I do in Romania. I had to be respectful and punctual. I learnt something I didn't know; it has been a challenge for me. In my free time, I rested because I woke up every morning very early. I went shopping to the mall in Malaga and Torremolinos.

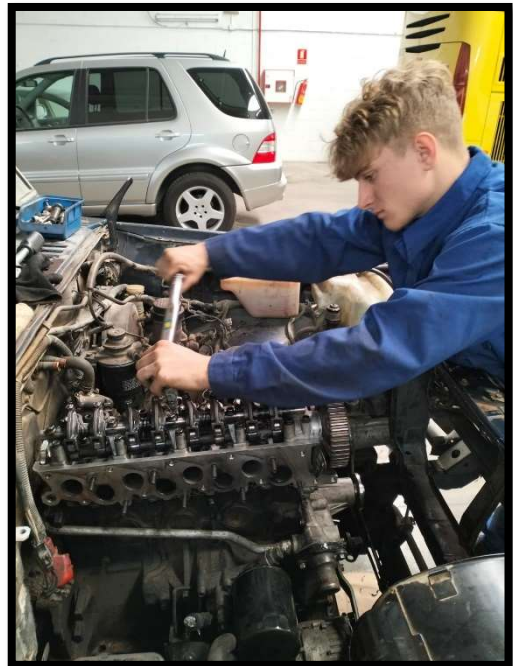

MIHAI-IONUȚ PÂRȘAN

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

Spain is one of the best tourist destinations in Europe and I always wanted to visit it. It's the second time I've been to Spain, but it's always worth coming. I am impressed by the hot weather. People are welcoming, they greet you even if they don't know you. I carried out the internship at Autocares Carmona Diaz where I had to be punctual, at 7 in the morning. It wasn't hard at all because I am used to this field. In Romania I did practice as a car mechanic and it was easy for me. It's a lot like what I do at school. I spent my free time with my friends at the beach, at the hotel pool, and walking in Torremolinos and Plaza Mayor.

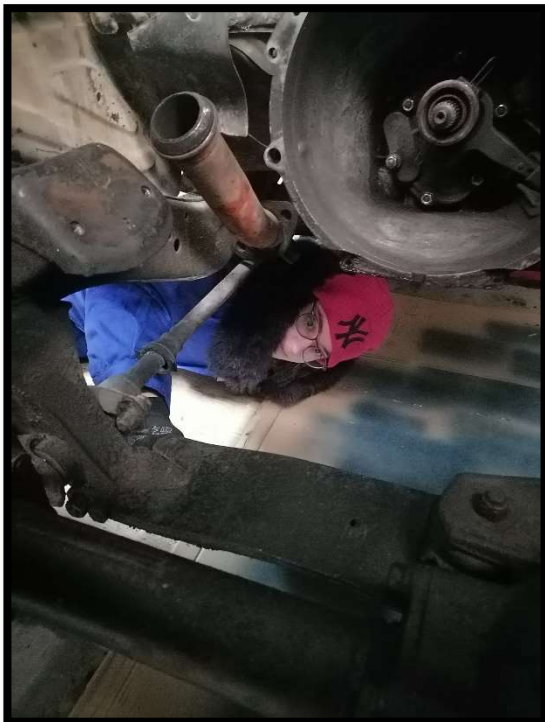

ADINA-DANIELA BĂDĂLAN

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about her personal & professional development

I chose to go to Spain because I have never been to another country before. I really like the place where I worked with my colleagues. The boss and employees are very funny and very nice. I really did not expect the trip to Gibraltar, the mountain was gorgeous and the monkeys so cute and funny. I worked at Autocares Carmona Diaz S.L. and every day the boss asked us to clean the buses. In my free time, I liked to play table tennis with my friends and sat on the terrace of the hotel to admire the view that leads to the mountain. Spain is a gorgeous country with many beautiful places to visit, which I hope I will visit in the future!

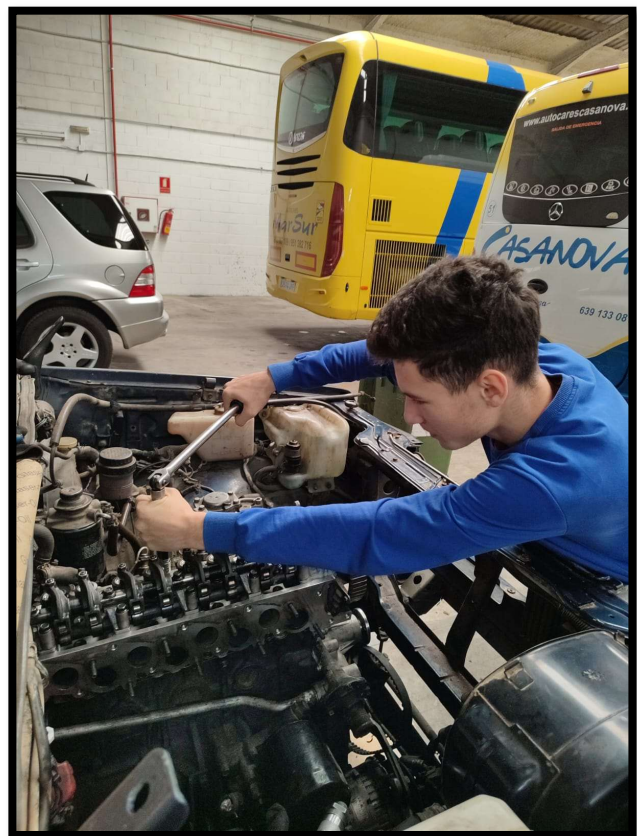

ȘTEFAN- COSMIN ȚICLETE

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I chose to go to Spain with the director's proposal to practice for two weeks for my personal knowledge. In Spain, I liked the unique landscapes, especially the sea. I worked at Autocares Carmona Diaz S.L. One of my tasks was to go by bus with a bus driver to take children to school. Then at the garage, I fixed cars with my colleagues. The work in Romania compared to Spain is similar. In my free time, I spent time with my friends, playing table tennis and sometimes pool.

Host Organization: Autos Sedán SL

Tutor's name: Sergio Santos

1. Description of the host organization

Autos Sedán (Autos Sedán S.L.) is a multi-brand car repair and maintenance workshop where Bosch and Magneti Marelli diagnoses are also carried out, as well as inspection and repair of ABS brakes, clutches, air conditioning, etc. The workshop also offers sheet metal and painting services with state-of-the-art ecological booths and varnishes.

2. Main responsibilities & tasks carried out during the work placement

- Helping with the installation and replacement of car air conditioning
- Assisting in aligning and repairing wheels
- Assisting in inspecting and testing new vehicles to detect potential faults
- Helping in lifting the vehicle to a specified level, using a hydraulic jack
- Disassembling units such as engines, gearbox etc. using manual or electric tools
- Performing basic services and repair activities related to car servicing, i.e. oil and filters change, defective parts replacement, washing of the engine and other car components
- Evaluating the quality of mechanical, electrical and electronic vehicle equipment operations
- Selecting and using measurement instruments and diagnostic equipment in the vehicles
- Using diagnostic computers and oscilloscopes in the workplace
- Repairing car body, i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembling and disassembling of car body components and chassis

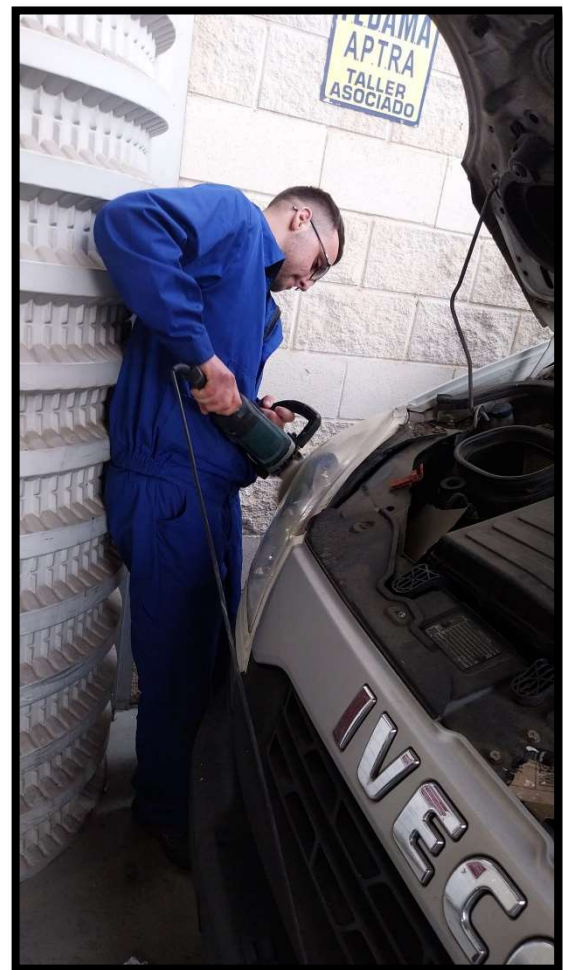

CĂTĂLIN- IONUȚ CURELEA

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to go to this country because I have never had the opportunity and I heard that it was very beautiful. I knew what I would find here because I watched it on YouTube, but everything was impressive. I worked at Auto Sedan SL. My mentor was understanding, he explained what I had to do. The work is similar in my country, the car problems are the same, but I also learnt things that I didn't know. I spent my free time with my friends and teachers.

ALBERT-FERNANDO DOBROMIRESCU

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I always wanted to visit another country, so Spain was up there on the list. It was a great opportunity when it was presented, and I wanted to be part of this experience. From the start, I knew I would like it and that I would have a wonderful time. The weather was amazing and the people were so nice and welcoming. I was also very surprised that public transport was so punctual and fast. The company Auto Sedan SL gave us plenty of work and duties to do, on the other hand, it wasn't so different from what we do in Romania. We did a lot of fun things in our free time, we went to the beach where we played football and tennis. We also went to Torremolinos and bought sunglasses and souvenirs. It was such a lovely experience and I hope I could visit this city again someday.

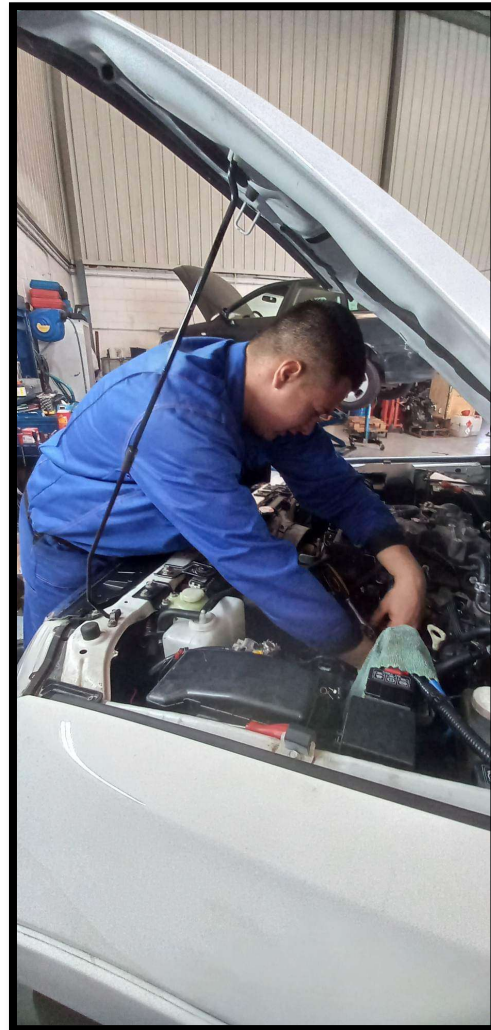

CRISTIAN - ROBERT ROȘU

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I really wanted to visit Spain. What surprised me in Malaga were the beautiful beaches near the hotel. I did my internship at Auto Sedan. I listened to the indications of my mentor and tried to learn more and more about how to repair a car. The differences compared to the work in Romania are not very big, the cars have the same problems. I noticed a better organization of time. In my free time I visited Malaga, Plaza Mayor, played pool at the hotel.

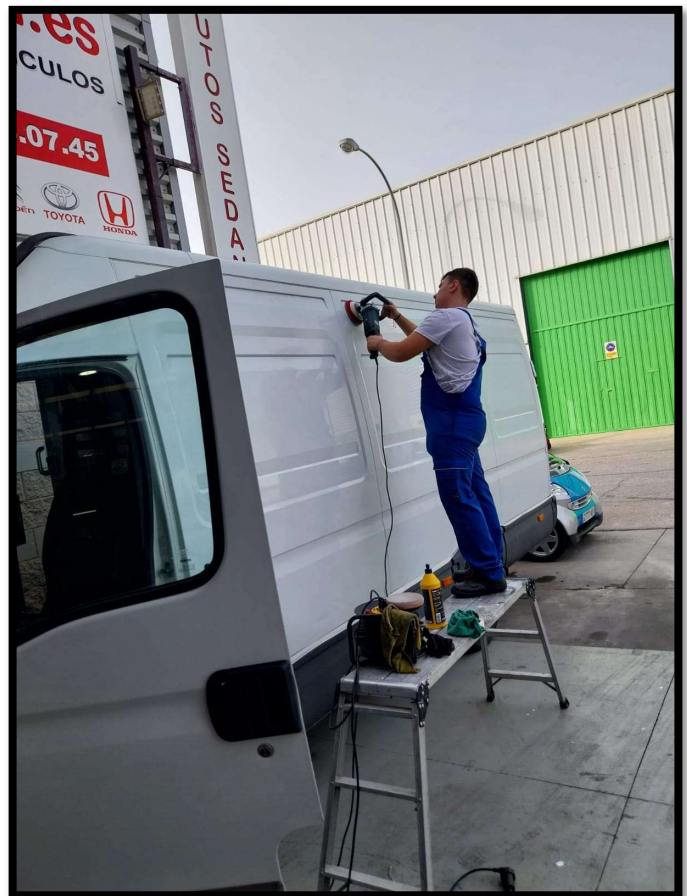

DENIS-DOINEL VASILE

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to go to Spain because I had never been to a foreign country. I discovered a new country, with a different language and even different food. I was very surprised by the beach, the palm trees and even the parrots flying freely. I worked at Auto Sedan SL. At the internship, I cleaned cars and worked on assembling parts in the car cabin. In my free time, I liked to walk on the beach and play pool.

Host Organization: Caja de Cambios Automáticas Internacional S.L.

Tutor's name: Jerónimo Carrique Cabeza

1. Description of the host organization

Caja de Cambios Automáticos (Caja de Cambios Automáticos Internacional S.L) is a company dedicated to the integral service and repair of automobiles. Its facilities have an area of 1000 m² and are equipped with state-of-the-art diagnostic machines. The workshop is specialized in the repair, maintenance and replacement of gearboxes of all brands, both electronic and mechanical.

2. Main responsibilities & tasks carried out during the work placement

- Helping with the installation and replacement of car air conditioning
- Assisting in aligning and repairing wheels
- Assisting in inspecting and testing new vehicles to detect potential faults
- Helping in lifting the vehicle to a specified level, using a hydraulic jack
- Disassembling units such as engines, gearbox etc. using manual or electric tools
- Performing basic services and repair activities related to car servicing, i.e. oil and filters change, defective parts replacement, washing of the engine and other car components
- Evaluating the quality of mechanical, electrical and electronic vehicle equipment operations
- Selecting and using measurement instruments and diagnostic equipment in the vehicles
- Using diagnostic computers and oscilloscopes in the workplace
- Repairing car body, i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembling and disassembling of car body components and chassis

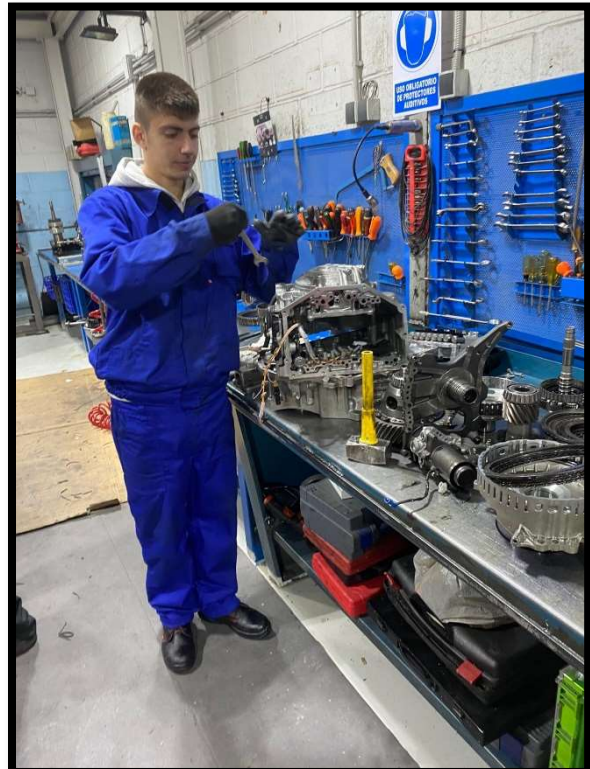

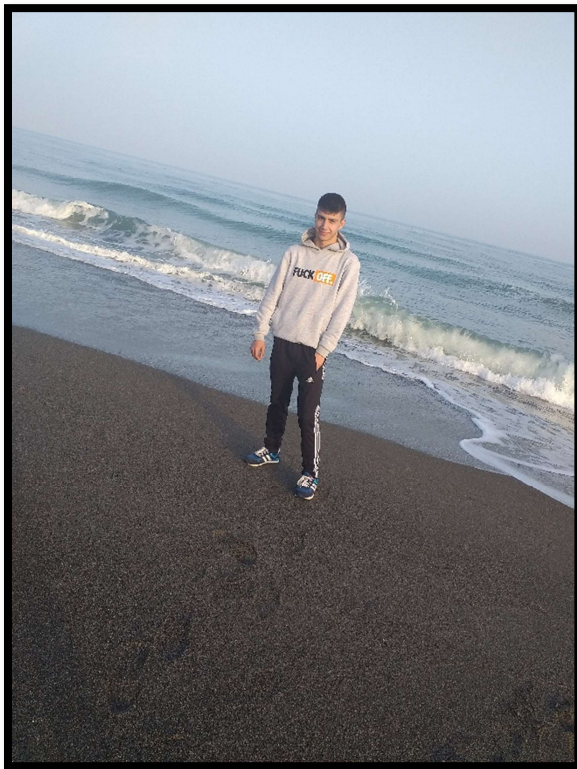

CĂTĂLIN -ALEXANDRU GÎRTOI

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I wanted to be selected for this project precisely to visit Spain, especially because I wanted to come together with my brother. I've enjoyed everything I've seen so far, but the Mediterranean Sea remains my biggest memory. I worked at Caja de Cambios Automáticas International S.L. where I settled in quite well, I tried to communicate with the people there in order to be careful and not to make mistakes. In my free time, I went for a walk on the beach in Torremolinos and Malaga with my friends.

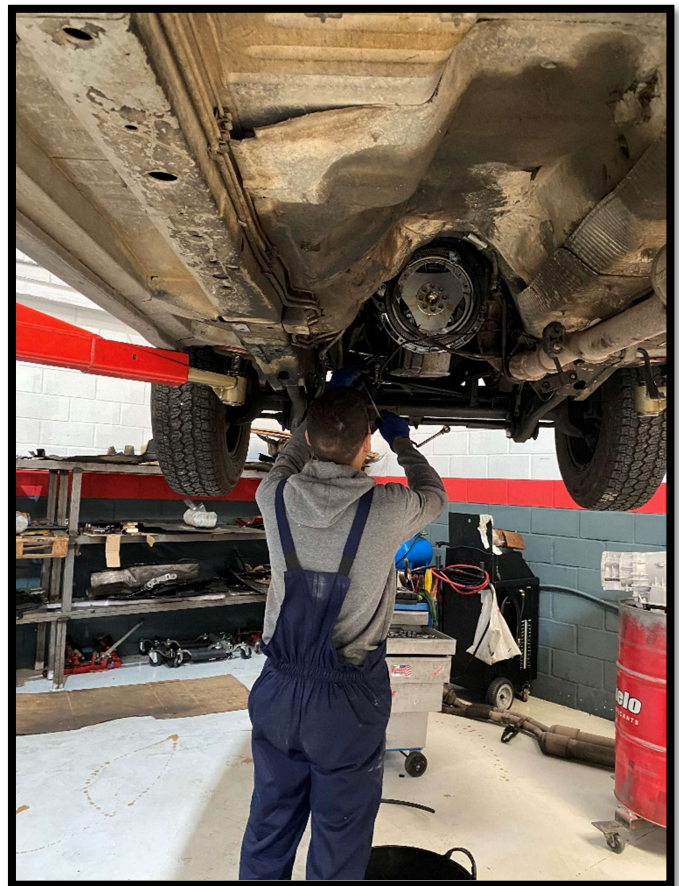

ȘTEFAN- CĂTĂLIN MANȚOG

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I really wanted to visit Spain, because I heard it had warm weather. What surprised me in Malaga were the beautiful beaches near the hotel. I practised at Caja de Cambios Automaticas S.L. and listened to my mentor's instructions and try to learn more and more about how to repair a car. There are no big differences in this work environment in Romania. In Spain, I noticed a better organization of time. In my free time, I visited Malaga, Plaza Mayor, and I played pool at the hotel.

IONUȚ-MIHĂIȚĂ GÎRTOI

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I was impressed by the buildings in the city, which are white and with architecture very different from my country. I worked at Caja de Cambios Automaticas Internacional SL where I tried to learn as much as possible about cars. The difference between Romania and Spain at work is not very big, the schedule is the same, we repair cars and follow the advice of the mentors. In my free time, I visited the nearby cities, went to the beach and play pool and table tennis at the hotel.

Host Organization: Talleres Barco

Tutor's name: Radoslav Vladimirov Milanov

1. Description of the host organization

Talleres Barco - Radoslav Vladimirov Milanov is a car workshop formed by a great team of professionals, lovers of their work and the motor world. Among the work they do we can highlight: Mechanics in general - engine, suspension, bodywork; maintenance plans - official maintenance review of the vehicle as required by the manufacturer, specialised and tailored; brakes; Clutches - they work with the first brand of clutch and bimasa kit, thus offering a guarantee of perfect operation for as long as possible; automatic gearboxes; Timing belt; electricity diagnosis. They have the latest technology to detect exactly where the fault or failure has occurred and give the most satisfactory solution for repair. In addition, they prepare the vehicles with full warranty so that they successfully pass the technical inspection of the vehicles (ITV)

2. Main responsibilities & tasks carried out during the work placement

- Helping with the installation and replacement of car air conditioning
- Assisting in aligning and repairing wheels
- Assisting in inspecting and testing new vehicles to detect potential faults
- Helping in lifting the vehicle to a specified level, using a hydraulic jack
- Disassembling units such as engines, gearbox etc. using manual or electric tools

- Using diagnostic computers and oscilloscopes in the workplace
- Repairing car body, i.e. welding, brazing, riveting, sheet metal and profiles bonding, assembling and disassembling of car body components and chassis

CRISTINEL-NICUȘOR CAPEZAN

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

What I liked most was staying at the hotel and walking around the Spanish towns we visited. I also liked the food in Spain. I worked at Talleres Barco Company. The most important tasks I have done at the internship were: changing the oil in cars and replacing engine parts. I could say that here in Spain I had the best work experience.

ALEJANDRO- NICOLAS RADU

1. Tutor's final note

6 (Excellent)

2. Participant's opinion about his personal & professional development

I chose to go to Spain because I speak Spanish and it would have been easy for me to practice. I did an internship at a car mechanic company Talleres Barco. During the practice days, I received several assignments: I helped a mechanic change brakes, parts of the distribution system and other tasks. Work in Romania is almost the same as in Spain. In my free time, I enjoyed walking around the historic centre of Malaga and playing table tennis.

PROJECT MANAGEMENT

1. Mobility Project Preparation & Induction

Before the arrival of your trainees in Spain, Euromind provided them with the pre-arrival guide, including useful information, local transport & social life, emergency numbers.

Euromind has also arranged Skype meeting with the participants in order to get to know them and to interview them.

After the Skype interview, Euromind created a Facebook group to which all the selected participants were invited, together with their Teachers. This way Euromind Coordinator had constant contact with the target group already before their arrival in Spain.

Once the Skype interviews were delivered, Euromind upon a thorough analysis of the participants' studies and profile provided each one of them with an adequate work placement.

Euromind took responsibility for preparing Learning Agreements individually for each participant and made sure that all the parties involved signed all the necessary documents.

On the first day after the arrival, Euromind organized the welcome session during which the participants got to know the Euromind team, were reminded about the programme agenda, accommodation rules and dissemination strategy options.

Later on, the participants were taken for a walk around the neighborhood to get to know the area and find out where banks, mail box, workplace, supermarkets, bus station are.

2. Monitoring & Mentoring

In order to make sure that the objectives of the Learning Agreement were going to be achieved and that the participants would be fully integrated in the companies' work culture, the monitoring was delivered by all of the parties involved in the project.

Euromind assigned a Mentor for the group of participant who was responsible for the introduction of the participants to the host organisation(s). During the work placement/training the Mentor delivered monitoring visits to the work placements in order to revise the tasks of the trainees, their progress as well learn from the first hand the level of satisfaction of both the participants and the host companies/training centre tutor.

The mentor in cooperation with companies Tutors carried out the evaluations of the trainees in the middle and at the end of the trainings.

After obtaining the results of the half-way through evaluation, the Mentor met the participants to give them the results of this evaluation. The least favourable results were discussed with the participants in private so that both the Mentor and the trainees had the comfort of sharing the information and exchanging the opinions and finding solutions to some problematic issues.

Host organisations assigned a member of its staff as a tutor. The tutors from the host companies were responsible for helping, informing and guiding and supervising the work done by the participants. The tutors had regular meetings with the participants in order to assess their presence in the company as well as to discuss the tasks and responsibilities according to the needs of the company and the participants.

Euromind at the end of the programme during the goodbye session handed out evaluation sheets to the participants so that they could assess their stay in Spain, work placements, as well as the work of the Euromind.

Euromind was also available to the participants 24/7 in case of emergency.

3. Communication

Euromind takes good care of successful communication between companies and trainees. Each evaluation of work is aimed at improving the quality of cooperation. Each party is thoroughly checked and assessed and the necessary improvements are introduced. Moreover, Euromind mediates in this supervisor-trainee collaboration by translating and solving language-connected complicated matters.

4. Dissemination strategy

Euromind took active part in the process of preparing and dissemination results of the project together with the sending organisation and participants.

While the trainees were in Spain, Euromind involved them in a number of activities the aim of which was to make students monitor and collect all the information related to the progress of their work placements and stay in Spain. The materials produced by the participant would be then used as tools for disseminating results by the school in their country and by the partner in Spain.

The participants could work in groups or individually. On the first day they needed to decide on the form or forms of recording their professional experiences.

As a rule the whole group needed to create a Facebook fun page as it is an effective and quick means of accessing large numbers of people. What is more, it is a form that appeals to young people as they can share their experiences instantly and receive instant feedback, too. The fan page is always linked to the Euromind's Facebook fan page. The sending organisation was also asked to do the same thing.

This way the material produced by the trainees reached bigger audiences and was more effectively disseminated.

Euromind also disseminates the project at a local level. It organises language and cultural exchanges between the international trainees and students from local vocational colleges. During those meetings both Spanish and International students are involved in a number of activities the aim of which is to get to know each other, share experiences related to work experiences and in general their stay in Spain. The students also exchange information about their countries and cultures.

5. Certification

To validate the acquired skills, the trainees, at the end of their stay, received complete proof of their participation in the project by means of several methods of recognition:

- Training Certificate
- Europass Mobility Certificate
- ECVET

Euromind Project SL | Erasmus+ Final Report

CULTURAL ACTIVITY

1. Cultural activities, Andalusian cities & places visited during the programme

Walk around Malaga city centre

On the walk around Malaga city centre, the trainees were able to see Malagas oldest parts and explore its history. Dating back to almost 800 BC, Malaga is one of the oldest cities in the world. The tour passed by ruins from The Roman, Moorish and Christian civilizations including The Roman Theatre, The Alcazaba, The Cathedral of Malaga and St. Johns Church.

Trip to Gibraltar

Gibraltar is a British overseas territory located at the southern tip of the Iberian Peninsula and bordering Spain. The Rock is the most characteristic mark, which in ancient times was known as Mount Calpe, one of the two mythical Pillars of Hercules. The city combines the culture of two countries, which can be seen in the architecture, passing people on the street or listening to one of the 3 official languages, Spanish, English and Llanito. We cannot forget to mention the special inhabitants of The Rock, the macaques, which can be found at the very top. Legend has it that as long as macaques live on the island, Gibraltar will belong to U.K.

SUMMARY OF THE PROJECT

Euromind team did their best in order to deliver the best professional and cultural experience to the trainees of the project being always ready to help, give advice and solve any problems or doubts.

The trainees were fully satisfied with their work placements. They gained much needed professional experience abroad which is highly appreciated and sometimes even specifically asked by today's employers.

We have no doubt that our trainees will use their new knowledge and experience at their current work in their home country or increase their chances at the labour market and dazzle their future potential employers.

Moreover, the trainees learnt the basics of the Spanish language were able to work in a multi-cultural environment and proved themselves with the ability to work individually as well as in a team.

Euromind team was extremely satisfied with the trainees' involvement in the project and personal interest in whatever they participated in.

This project was very successful, and we hope to realize other successful projects with Liceul de Transporturi Auto in the future.

MÁLAGA, 24-02-2023
